

THE PLANK^{v1}

OZONE[®]
SINCE 1998 OZONEKITES.COM

INSPIRED BY NATURE  DRIVEN BY THE ELEMENTS

THE PLANK IS A SCHOOL SPECIFIC BOARD DESIGNED TO GET STUDENTS UP AND RIDING WITH EASE DURING THEIR FIRST WATER LESSONS.

The biggest struggle students have after learning to body drag is to water start and edge correctly. The Plank's large surface area and square outline combined with a moderate to low rocker assures early planing and predictable board handling. With a single concave bottom shape the Plank is smooth to ride and versatile for many conditions.

Off centred foot strap inserts increase comfort while edging and the inside heel edge fins provide extra tracking grip to reduce the board from slipping out when a student is learning basic edge control.

We have designed a helpful wind window diagram on the top side for instructors and students to reference during a lesson and serves as a reminder for students throughout their course.

The Plank comes with our V2 footpads and straps that are quick and easy to adjust, saving time when switching between students. The board handle is sturdy with a textured grip for added ease of use.

The Plank will have students smiling and hooked on the sport from their very first try. It is the perfect tool for developing necessary skills to progress to the next level.

148 X 47 CM

FEATURES

EXCEPTIONAL OZONE FACTORY CONSTRUCTION

World-class construction in our own factory, using the highest quality materials and hand checked Quality Control at every step. The Ozone factory also manufactures our Paragliding and Speed Wing range; the same Quality Control processes are used across all products.

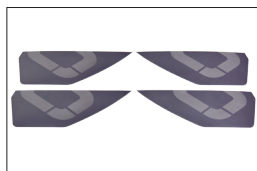

A-GRADE PAULOWNIA CORE

The premium A-grade Paulownia core provides ultimate flex characteristics, amazing strength, and reduced weight.

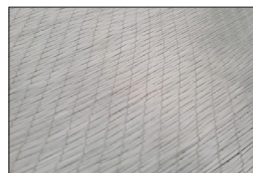

A-GRADE 316 STAINLESS STEEL INSERTS

Highest quality 316 Stainless Steel inserts embedded into ABS blocks. This insert construction offers superior strength for powered riding and using boots.

FINS V2

Two fin designs offer the choice for solid edge hold or increased freedom. Choose the 45mm size for maximum grip while edging and taking off to boost. The 35mm size is perfect for freestyle riders using boots and for those looking for increased freedom while carving. Our V2 fins are precisely injection molded using advanced glass-filled nylon materials for high strength and wear resistance.

HIGHEST QUALITY FIBERGLASS

Precise lamination using high quality Biaxial and UD fiberglass layers to provide the ultimate balance of flex, response and strength.

FOOTPADS AND STRAPS V2

Having comfortable footpads and straps can be the difference between a good session and a bad one. Our V2 design provides the ultimate balance between performance and comfort to keep the good sessions rolling!

BOARD HANDLE V2

Strong and durable with a textured underside grip for maximum control during water starts to board offs.
